### India's Reserve Bank Keeps Rates Unchanged Amid Inflationary Risks

The RBI decided to keep the policy repo rate under the liquidity adjustment facility (LAF) unchanged at 7.25 per cent and to keep the cash reserve ratio of scheduled banks unchanged at 4.0 per cent of their net demand and time liabilities. The Central Bank warned of upward risks to inflation posed by a falling rupee and increases in food prices.

### India's Inflation Slows to 4.7% in May

India's annual rate of inflation, based on the Wholesale Price Index, stood at 4.70 percent (provisional) for the month of May as compared to 4.9 percent in the previous month, the lowest level in more than three years.

### India's Economy is Bound for Slower Growth in 2013

In recent months, Indian government has introduced pro-business economic reforms and outlined plans to increase spending on capital investment and large-scale social programs by 29 percent. Yet, it looks like is too little and too late. In the first three months of 2013, the GDP growth slowed to 4.8 percent and it is likely to go down further due to weak consumption, capital investment and declining government spending.

### India's Economy Makes Timid Recovery in Q1

India's quarterly Gross Domestic Product grew at 4.8 percent in the first quarter of 2013, only slightly better than an upwardly revised 4.7 percent growth in the previous three months. While Services were the largest contributor to growth, Manufacturing rose only 2.6 percent, Electricity, gas and water supply increased 2.8 percent, Agriculture, forestry and fishing were up 1.4 per cent and Mining and quarrying declined 3.1 percent.

### India Inflation Rate Down to 4.9% in April

The annual rate of inflation, based on monthly WPI, stood at 4.89 percent for the month of April 2013 (over April 2012) as compared to 5.96 percent for the previous month and 7.50 percent during the corresponding month of the previous year. Build up inflation rate in the financial year so far was 0.53 percent compared to a build up rate of 1.55 percent in the corresponding period of the previous year.

### India Trade Deficit Widens in April

India's trade deficit rose in April from the same month a year earlier as imports of gold and silver increased more than twice, underlying an improvement in exports.

### Reserve Bank of India Cuts Interest Rate by 25bps to 7.25%

Based on an assessment of the current and prospective macroeconomic situation, the RBI has decided to reduce the policy repo rate under the

## LATEST NEWS

### US Jobless Claims Rise to 360K in Latest Week

### Irish Inflation Up to 0.7% in June

In June, Ireland's consumer prices were, on average, 0.7 percent higher compared with June of 2012. The biggest price increases were registered in education, up 4.8 percent, and alcoholic beverages and tobacco, up 4.4 percent.

### Bank Negara Malaysia Holds Policy Rate at 3%

At the Monetary Policy Committee meeting held on July 11th, Bank Negara Malaysia decided to maintain the Overnight Policy Rate at 3.00 percent for the thirteenth time, citing concerns about weakness in the external sector.

### Greek Unemployment Hits New High of 26.9% in April

In April, Greece's unemployment rate rose to 26.9 percent, compared to 23.1 percent in April of 2012 and 16.2 percent in April of 2011. Youth jobless rate rose further to 57.5 percent.

### Bank Indonesia Raises the BI Rate to 6.5%

Bank Indonesia decided on July 11th to raise the BI Rate by 50 bps to 6.5 percent and the Deposit Facility Rate by 50 bps to 4.75 percent, while the Lending Facility Rate remains at 6.75%. The policy mix intends to contain inflationary pressures, attain the exchange rate equilibrium and the stability of the financial system.

### Central Bank of Brazil Raises SELIC Rate to 8.5%

In its July 10 meeting, the Bank of Brazil's monetary policy committee raised its benchmark interest rate to 8.50 percent from 8 percent, maintaining the pace of monetary tightening to fight above-target inflation. The decision by the bank's committee was unanimous.

### South Korean Monetary Policy Unchanged in July

The Monetary Policy Committee of the Bank of Korea decided on July 11th to leave the Base Rate unchanged at 2.50 percent, citing the tapering off US quantitative easing and weak domestic demand as downside risks to growth.

### French Inflation Rate Edges Up to 0.9% in June

liquidity adjustment facility (LAF) by 25 basis points from 7.5 per cent to 7.25 percent.

#### India Trade Deficit Narrows in March

India's exports rose 15 percent in February 2013 from a year earlier to INR 1678 billion, while imports rose 5 percent to INR 2239 billion leaving a trade deficit of INR 561 billion, according to trade ministry data.

#### India Inflation Rate Down to 5.96% in March

The annual rate of inflation, based on monthly WPI, stood at 5.96 percent for the month of March, 2013 (over March, 2012) as compared to 6.84 percent for the previous month and 7.69 percent during the corresponding month of the previous year. Build up inflation rate in the financial year so far was 5.96 percent compared to a build-up rate of 7.69 percent in the corresponding period of the previous year.

#### Reserve Bank of India Cuts Interest Rate by 25 Basis Points

Based on an assessment of the current macroeconomic situation, the Reserve Bank of India decided to reduce the policy repo rate under the liquidity adjustment facility (LAF) by 25 basis points from 7.75 percent to 7.5 percent with immediate effect. Consequently, the reverse repo rate under the LAF stands adjusted to 6.5 percent and the marginal standing facility rate and the Bank Rate to 8.5 percent with immediate effect.

#### MORE RELATED NEWS

In June, the Consumer Price Index grew by 0.9 percent, up from 0.8 percent in May and 0.7 percent in April. The largest upward contributions to the change in the annual rate of the CPI came from the rises in prices of food, especially fresh food prices.

#### Australian Unemployment Up to 5.7% in June

Australia's seasonally adjusted unemployment rate was 5.7 percent in June 2013, compared to a revised 5.6 percent in May. Australian employers hired more workers in June but the much more rapid growth in the population drove the jobless rate to its highest in almost four years.

#### Bank of Japan Keeps Monetary Policy Unchanged

At the Monetary Policy Meeting held July 11, the Policy Board of the Bank of Japan stated that the economy is on recovery path and decided to maintain the current quantitative easing policy. The monetary base will continue to increase at an annual pace of about 60-70 trillion yen.
