Government of India Ministry of Communications & IT Department of Telecommunications NT Cell

No. 4-1/2010-NT/Vol.- II Date :9th Sept, 2013

Subject: Minutes of Meeting (30th Aug, 2013) – Service Providers Review meeting on IPv6 Readiness Status.

Participation:

- a) DDG (NT), DDG (NT-COI), Dir (NT-III), Dir (NT-CoI-1)
- b) Representation from Service Providers as per Annexure I.

Shri R M Agarwal, DDG (NT), welcomed all the participants in the meeting. He briefed about need for readiness of the Service Providers for the proliferation of Pv6 in the whole ecosystem. Ms. Shubha N. Bhambhani DDG (NT-COI) while hailing the idea of such meetings, called for greater industry-DOT interactions and cooperation.

Following was discussed:

- The compiled status on IPv6 readiness as received from the service providers is placed at Annexure II. The same was discussed in detail. It is evident that the service providers in general in Enterprise section are IPv6 ready (13/17). In GSM segment 2 are ready, in CDMA segment, 2 are ready and in Wire line (BB) segment 7 are ready.
- It was requested to all service providers that the up-stream and down-stream peering sheet may be submitted by all the service providers as per the Performa already provided by 25th Sep. It was also agreed to find out the ISPs who have not peered on IPv6 so far for follow up on peering.
- 3. It was agreed in meeting that while filling data, the number of customers should also be reported in the Performa.
- 4. MTNL has given IPv6 compliance targets as Dec. 2014. It was agreed that case will be taken up with MTNL separately.
- 5. Some service providers informed that Broadband LI is governed by C-DoT which is technically IPv6 ready and there are no issues for the same. However in case of GSM/ CDMA LI setup is by service providers themselves and needs to be upgraded to support IPv6. The activity is not started in want of IPDR guidelines from DoT. Commercial service offering is on hold accordingly. It was informed by DDG (NT) that issue has been briefed to Sect (T) in oversight committee meeting and resolution will be expedited.
- 6. Some operators reported that different DoT arms in the states/circles ask for IPv6 compliance in different formats which is difficult to comply. It was decided that the DoT format standardised in consultation with service providers will be shared with all NT field units. All NT field offices will be sensitized to get data in the HQ agreed format only.
- DDG (NT) requested the operators to offer some useful practical case studies showcasing the IPv6 technological innovations, for the soon to be published compendium by NT Cell DoT HQ. RIL, Reliance Jio Infocomm, MTS, Aircel, TTSL and Vodafone agreed to share their feedback in this regard.

- 8. It was decided that the IPv6 review meeting will be held on quarterly basis.
- 9. Director (NT-III) apprised the service provider about the M2M policy initiatives and the linkages between IPv6 and M2M going hand in hand and asked all the operators to be ready for M2M scenario and prospective business. They were also requested to respond to DoT's M2M questionnaire to be released by mid-September.

Meeting concluded with vote of thanks by DDG (NT).
