A decorative horizontal bar consisting of a teal segment on the left and an orange segment on the right.

Benefits

Cost savings of up to 80% on ILL on Extreme IX

ExtremePort - One port, multiple services:

1. Extreme IXP & other IXPs including remote IXPs
2. Service Providers - ILL & IPTV providers
3. PTP & PTMP links,
4. Direct PNIs with content providers

Fast Peering Router: No need to wait for BGP with content providers not on route servers.

A horizontal line with a teal segment on the left and an orange segment on the right.

How to connect

1. Arrange dark fiber to nearest Extreme IX POP in your city
2. Arrange NLD to Mumbai / Delhi / Chennai

Best Practice

2 x 2/3rd peering capacity to different Extreme - IX cities
