Dated : 20.12.23

To

- i. All UL / UL VNO Licensees with Access / Internet service authorization
- ii. All Internet service licensees

Subject: Data base of IP addresses being used in India.

Location of web / application servers need to be traced on immediate basis as and when required or in case they are not complying with the Laws of the land or they are required to be blocked as per orders of Hon`ble court, etc.

2. It has been observed that many times it is time consuming to trace location of such servers specially in case the IP address of servers is customer owned and not allocated by the Licensed Internet Service Provider. Access / Internet Service providers, inter-alia, route customer owned IP addresses and Autonomous System (AS) numbers.

3. In view of above, all licensees are instructed as per Clause 39.24 of Chapter VI Part I of UL license / Clause 38.24 of UL VNO License / Clause 15.1 of ISP license, as follows:

(i) Create and maintain an updated data base as per format enclosed as **Annexure** so as to expedite tracing of webservers, as and when required.

(ii) Upload the data base on Saral Sanchar portal (having restricted access) and update the same as when there is any change in the same on daily basis.

(iii) Till such time, provision is made in Saral Sanchar portal for the same, each Licensee is required to provide the said list to their respective LSA by 5th of every month for the preceding month. First report is to be submitted by the Licensees latest by 5.01.2024.

DGT office is requested to arrange to provide a consolidated data base of All India (searchable and Password protected) to this office on monthly basis latest by 10th of every month for the preceding month in respect of all Licensees.

4. As the matter relates to maintenance of Public Order and National security, timely and meticulous compliance of the above is solicited without fail.

5. This issues with the approval of Competent Authority.
