

No. 52-1/2019-Trg.  
Government of India  
Department of Telecommunications  
(Capacity Building & Training Division)

Dated: 10<sup>th</sup> Sept., 2020

**OFFICE MEMORANDUM**

**Subject: Online GSMA Capacity Building and Training Courses.**

GSM Association (GSMA) is an industry organization that represents the interests of mobile network operators worldwide, is offering following ONLINE Capacity Building Training Courses to policy makers and governments in the APAC region through GSMA's online portal:

1. Big Data Analytics and Artificial Intelligence for Impact.
  2. Leveraging Mobile to Achieve SDG Targets.
  3. Spectrum Management for Mobile Telecommunications.
2. These online training courses offered by GSMA will help the participants to understand the principles of Big data analysis & AI, Spectrum management, Leveraging the mobile technologies to achieve the SDG targets, etc.
3. Objective of these GSMA's courses is to familiarize participants and make them understand the implications of different policy and regulatory approaches and how they affect the delivery of mobile services to consumers, by emphasizing real-world examples of regulatory best practice from different regions around the world.
4. Further details of the program are as under: -
1. These Capacity Building online courses run 2-5 weeks long and participants can take these courses at their pace.
  2. Most courses include live chat sessions where GSMA's course trainers (subject matter experts) talk through questions participants have, and participants have the option of completing a final project to be marked by the course trainer on an area of their choice within their chosen course subject.
  3. To register and enroll onto these courses, you can visit GSMA's website (<https://www.gsmatraining.com/>). Here you will see more information on each of the courses, their lengths, and there will be a button potential participants can click that says 'enrol onto this course'.
  4. Once you registered your interest in one or more courses, GSMA can then accept participants onto the appropriate courses.

Interested DoT officers are requested to kindly visit the GSMA online portal (<https://www.gsmatraining.com/>) for further information and registration.
