STANDARD OPERATING PROCEDURE FOR CPIN UTILITY ON BHARATKOSH

(A) Introduction

Bharatkosh, formerly known as the Non-Tax Receipt Portal, provides a one-stop solution for the collection and accounting of non-tax receipts for all Ministries and Departments. It is a 24x7 online web-based system that enables citizens, corporates, or any entity to make online payments to the Government through modes like credit cards, debit cards, internet banking, UPI, NEFT, and RTGS for availing services. Additionally, it also facilitates donations to Swachh Bharatkosh, National Disaster Relief Fund as a payment gateway and is integrated with several independent portals for the collection and accounting of receipts.

(B) Need for migration to ekuber 2.0

NEFT/RTGS is one of the payment modes supported by Bharatkosh. At present, non-tax receipts received through NEFT/RTGS mode are processed via ekuber version 1.0 where the payee has to mandatorily enter the UTR on Bharatkosh for verification and reconciliation of receipts received in PAO's RBI receipt account. Often, the payees transfer funds directly to PAO's RBI receipt account without generating deposit slips or they miss updating the UTR on Bharatkosh resulting in unreconciled receipts.

In e-Kuber version 2.0, on selection of NEFT/RTGS mode, a unique Challan Payment Identification Number (CPIN) will be generated. On receipt of fund, the RBI will share the Unique Transaction Reference (UTR) which will be automatically updated against the transaction on Bharatkosh. The payee will not be updating the UTR on Bharatkosh portal.

(C) Making payment through Bharatkosh using NEFT/RTGS in ekuber 2.0

If a payee wishes to make payment using the NEFT/ RTGS mode on Bharatkosh, it is advised that the user may first register themselves by following the below steps:

1. Click on the 'Register' button on the Home page.
2. Enter a valid Mobile No. and E-mail ID; click on the 'Send OTP' button.
