**Sub: Virtual conference on DoT Initiatives in M2M/IoT Domain| 07 December 2022 | 2:30 PM – 5:00 PM IST- reg.**

M2M/IoT is one of the fastest emerging technology across the globe which is being used to create smart infrastructure in various verticals using connected devices. IoT is benefitted by recent advances in several technologies such as sensors, communication technologies (Cellular and non-cellular), AI/ ML, Cloud computing, Edge computing etc.

2. DoT has been working in M2M/ IoT domain since 2014 and has taken a number of initiatives, such as

- i. Guidelines for registration of M2MSP Service Providers and WPAN/WLAN Connectivity Providers,
- ii. new license for UL(M2M) and UL-VNO(M2M) under UL and UL-VNO licenses,
- iii. addition of 1 (one) MHz additional spectrum in the earlier unlicensed 865-867 MHz band, making it 865-868 MHz.
- iv. release of technical reports on M2M/IoT by TEC
- v. adoption of OneM2M release 2 standards

3. A Virtual Conference is scheduled on 07.12.2022 to disseminate awareness and seek feedback from the stakeholders in M2M/IoT ecosystem about the current initiatives being taken by DoT in M2M/IoT domain, for proliferation of M2M services in the country. For program schedule and session details, please refer Annexure-I.

4. Webinar's Date/Time: 07 December 2022 | 2:30 PM – 5:00 PM IST
