I.A. 4270/2024 (application under Order XXXIX Rule 1 & 2 of the CPC)

1. This application has been filed as part of the suit filed by plaintiffs seeking permanent injunction restraining infringement of its copyright and broadcast reproduction rights, under the Copyright Act, 1957 (“**the Act**”) on account of unlawful activities by defendant nos. 1 to 21 in facilitating/enabling/authorizing access to the public of the plaintiffs’ exclusive copyright in content, *inter alia*, films, general entertainment, content, original web-series etc. (“**plaintiffs’ content**”).

2. It is alleged that defendant nos.1 to 21 are *rogue websites* that communicate, make available to, and provide access to plaintiffs’ content without any authorization from various right owners, including the plaintiffs.

3. Plaintiff’s counsel submits that the content on ‘*Disney+ Hotstar*’ and the STAR Channels is produced by plaintiffs and forms the subject matter of the instant suit. As described in paragraph no. 8 of the plaint and documents at serial nos. 2 and 4, plaintiffs are the producers of various TV Shows, films and/or web-series which are disseminated on STAR Channels and/or ‘*Disney+ Hotstar*’ and have the exclusive distribution rights to publicly exhibit and communicate the said content through any medium or mode including on the

STAR Channels or ‘Disney+ Hotstar’. They are protected as ‘cinematograph films’ under Section 2(f) read with Section 13 of the Act.

4. It is asserted that defendant nos. 1 to 21 are liable for infringement of copyright under Section 51 of the Act and the various ‘exclusive rights’ that, *inter alia*, would be deemed to have been infringed/ violated by the defendant nos. 1 to 21 are:

- a. the right of making a copy of plaintiffs’ cinematograph films including the storing of it in any medium by electronic or other means;
- b. the right of communicating plaintiffs’ cinematograph films to the public.

5. Counsel for plaintiffs draws attention to the decision of this Court in *UTV Software Communication v. 1337X.TO & Ors.*, 2019 SCC OnLine Del 8002, where a Coordinate Bench of this Court has deliberated in detail on the issues involved around infringing websites, in that, such infringing websites could contain infringing content, as well as content which was not showed. The Court has formulated certain illustrative guidelines for the Courts to assess while determining whether an infringing website would be considered as promoting or offering pirated content. For ease of reference, an extract from the decision is as under:

“59. In the opinion of this Court, some of the factors to be considered for determining whether the website complained of is a FIOL/Rogue Website are:

- a. whether the primary purpose of the website is to commit or facilitate copyright infringement;*

- b. the flagrancy of the infringement, or the flagrancy of the facilitation of the infringement;*
- c. whether the detail of the registrant is masked and no personal or traceable detail is available either of the Registrant or of the user.*
- d. whether there is silence or inaction by such website after receipt of take down notices pertaining to copyright infringement.*
- e. whether the online location makes available or contains directories, indexes or categories of the means to infringe, or facilitate an infringement of, copyright;*
- f. whether the owner or operator of the online location demonstrates a disregard for copyright generally;*
- g. whether access to the online location has been disabled by orders from any court of another country or territory on the ground of or related to copyright infringement;*
- h. whether the website contains guides or instructions to circumvent measures, or any order of any court, that disables access to the website on the ground of or related to copyright infringement; and*
- i. the volume of traffic at or frequency of access to the website;*
- j. Any other relevant matter.*

60. *This Court clarifies that the aforementioned factors are illustrative and not exhaustive and do not apply to intermediaries as they are governed by IT Act, having statutory immunity and function in a wholly different manner.”*

6. Counsel for plaintiffs has made this Court traverse through the above aspects, each supported by documentation filed by them.

7. It is evident from these documents which have been perused by the Court that *prima facie* the plaintiffs’ content on its various channels *inter alia* Star

Plus, Star World, Star Movies, Star Bharat, Movies OK, Star Gold, Jalsha Movies (in all about 77 channels across 8 languages) and OTT platform – Disney + Hotstar has been hosted/carried on these infringing websites. The illustrative list of content to which the plaintiffs claim its copyright and which is being made available through the infringing websites is tabulated as under:

82.	Sanjivani: A Medical Boon	83.	Kabhi Aaye Naa Judaai		

8. Claim of the plaintiffs to this content is of an exclusive right under Section 14(d) of the Act and a concomitant right of broadcast reproduction under Section 37 of the Act. The right to sue for infringement arises under Section 51 of the Act.

9. Counsel for plaintiffs further points out that copyright infringement notices under the Digital Millennium Copyright Act, 1998 (“**DMCA**”) have been duly addressed and issued to each of the rogue websites, and are placed on record. None of the defendants have responded to the same. It is also alleged in the plaint that pursuant to receipt of the DMCA notice, some of the defendant websites despite restraining from illegal activities, have deliberately created redirected websites. An infringement report made available pursuant to an internal investigation has also been placed on record.

10. In light of these facts and circumstances, the plaintiffs in relation to the guidelines of *UTV Software Communication (supra)* claims as under:

(i) It is evident from the overall content available on the infringing websites, of which screenshots have been place on record, that the primary purpose is to commit or facilitate copyright infringement.

(ii) The flagrancy of the infringement and the facilitation thereof, is evident from the messages on the some of these rogue websites.

(iii) As noted above, there has been silence and inaction by infringing websites after legal notices were sent.

(iv) The infringing websites clearly make available indexes to the content to which the plaintiffs claim copyright.

(v) The access to the owners/operators of infringing websites which are used in the infringing websites have been masked as evident from the WHOIS registrant details.

(vi) It is pointed out that some of the defendants *inter alia* defendant no.1 and 8 have adopted the domain name in the name of plaintiffs' content itself.

(vii) These websites are updating on a day-to-day basis and providing latest content of the plaintiffs.

11. Defendant nos. 22 to 31 have been arrayed, who are Domain Name Registrars (“**DNRs**”) for the infringing websites.

12. Defendant nos. 32 to 40 are various Internet Service Providers (“ISPs”) available domestically in India who provide access to internet in India. They control access to internet and are in a position to ensure that access to these infringing websites is not available.

13. Defendant no. 41 is the Department of Telecommunication (“DOT”), while defendant no. 42 is Ministry of Electronics and Information Technology (“MEITY”), which represents the Government and are the overall regulators of the internet environment in the country. They have been called upon for the purpose of ensuring that the ISPs are in compliance with any directions which may be passed by this Court.

14. Defendant no. 43 has been arrayed as “Ashok Kumar” which is a generic name (as John Doe) to include all those who in the future may be discovered as using the plaintiffs’ content.

15. In light of these circumstances, the Court is of the view that plaintiffs have made out a *prima facie* case for grant of an *ex-parte ad interim* injunction as also a dynamic injunction. Balance of convenience lies in favour of plaintiffs as irreparable loss would be caused if the same is not granted.

16. Accordingly, till the next date of hearing the following directions are issued:

- a) Defendant nos.1 to 21 including their owners, partners, proprietors, officers, servants, affiliates, employees, and all others in capacity of principal or agent acting for and on its behalf, or anyone claiming through, by or under it, are restrained from in any manner communicating to the public, hosting, storing, reproducing, streaming,

broadcasting, re-broadcasting, causing to be seen or heard by public on payment of charge and/or making available for viewing plaintiffs' content through their websites including those listed as under:

Annexure

Subject: Action requested to be taken by MEITY and Plaintiff for effective removal of content for viewing by public at large within India as per the said orders of Hon'ble Court.

It is observed that a number of orders of Hon'ble Court are issued for blocking of websites every month. There are around more than 2700 ISPs in India and these ISPs are connected among themselves in a mesh network. DOT is instructing each of the ISPs through emails/through its website for blocking of the websites as ordered by the Hon'ble Courts. Ensuring compliance of the orders by each of the ISPs is a time-consuming and complex task especially in view of multiplicity of orders of Hon'ble Courts, multiplicity of websites to be blocked and multiplicity of ISPs.

2. Allocation of Business Rules inter-alia states thus:-

'Policy matters relating to information technology; Electronics; and Internet (all matters other than licensing of Internet Service Provider).'

3. In view of above and in order to ensure effective removal by content for viewing by public at large, the plaintiff is requested to do a trace route of the web server hosting the said website. In case the web server happens to be in India, the plaintiff may inform the same to Meity who may direct the owner of such web server to stop transmission of content as per IT Act and as directed by the Hon'ble Court so that the content would be blocked from the source itself and the exercise of blocking by 2700 ISPs would not be required.

4. In case such server is located abroad i.e. outside India then access to such URL/website can be blocked through the international internet gateways which are much less in number. This would result in timely and effectively removal of undesirable content for viewing by public at large as is the requirement as per the orders of Hon'ble Court.
